The Scholarship

Makomborero Zimbabwe seeks to identify suitable candidates capable of A-level entrance. In 2022 we will be offering A-level scholarships; **10 full scholarships to study at excellent Harare based private schools (Internal Scholarship) and 16 full scholarships to study at government day schools (External Scholarship).** Thus provide the chosen students with the resources to achieve their educational goals where they may have fallen short through financial hardship and/or not having access to well-resourced A-level facilities in their current schools. As part of the scholarship scheme the students will be expected to assist with the ongoing community work that Makomborero Zimbabwe participates in.

The scholarship will include:

Internal Scholarship

- All tuition fees and stationery
- School Uniform requirements
- Examination Fees
- Weekly accommodation and mentorship

External Scholarship

- All tuition fees and stationery
- Contribution to School Uniform Costs
- Examination Fees
- Mentorship

Scholarship Eligibility

- The scholarship scheme is designed to recruit the some of the most able O-Level students. Potential candidates must either already have attained (or be predicted) a number of A grades at O-level. Applicants writing their O-Levels in 2021 are able to apply.
- The final selection process will be completed by January 2022 and will be before the actual O-level results have been published.
- From time to time, the selection committee may decide to award a number of scholarships that fall outside of the strict academic requirements.
- Makomborero Zimbabwe welcomes any application from government school students that feel he/she can clearly demonstrate the passion and potential to achieve top grades in their chosen A-level subjects.

Selection Process

- All applications must be received by the date stated on the application forms. (October)
- Each application will be carefully considered, and an initial shortlist drawn up. (November)
- Shortlisted candidates will be called in for an interview and scholarship testing. (December and January – depending on the restrictions of Covid-19)
- The final selection process will be completed before the O-level results have been published.
